

**Danielle Giannetti**  
**Events Manager**

As events manager, Danielle Giannetti coordinates all events operations and logistics for Valley Forward Association. She is actively involved with the organization's event committees to help plan, manage and implement the association's signature events, including the Livability Summit, Environmental Excellence Awards, EarthFest Educators Night and Annual Luncheon, in addition to member mixers and quarterly luncheons. Giannetti previously served as the organization's operations manager and as been a member of the staff since May 2009.

Having graduated magna cum laude from Arizona State University in 2008 with her Bachelor of Arts in Communication, Giannetti previously interned at St. Joseph's Hospital and Medical Center's Marketing and Public Relations Department. Prior to that, she served as Director of First Impressions at Keller Williams Realty's East Valley office.

Giannetti is actively involved in her church, formerly serving as the president of Ladies Circle, a women's study and community outreach group, and now acts as a lead teacher. She volunteers with André House of Arizona, a house of hospitality that reaches out to the homeless and poor offering simple services like food, clothing, showers, blankets and shelter.

The best parts about living in the Valley for Giannetti are the weather, beautiful mountain sunsets and monsoon season. Her favorite thing about being a part of Valley Forward is putting together events that promote education and outreach on environmental and quality of life issues. Her mantra is "the difference is in the details" and it really shows at Valley Forward's stellar events.

Some of Giannetti's favorite things are Elvis Presley, cooking/baking, scrapbooking, fishing, antique shopping, bike riding, playing with her puppy Maggie and watching old movies with her husband.
